CONCERTO

Transitional Office Wood Veneer Products

Design Elements

Concerto presents office furnishings in a whole new light. Bolder, airier, lighter in both color and finish.

Concerto combines the crisp elements of European design with classic transitional style.

Concerto offers a remarkable value in today's marketplace. Our ash wood veneers are meticulously book matched. Solid hardwood banding adds a detail found only in higher priced products.

Distinctive edge treatments reflect continuity between storage units, work surfaces, and conferencing elements. Design details such as anodized hardware, black bases and optional glass shelving complement the rich texture of the real wood veneer. All these features create the aesthetics of a solid hardwood collection at an affordable price point that is price-sensitive.

Naturally, **Concerto's** refined form is combined with practical function. This modular collection accommodates needs for the executive office to the conference room suite.

Filing Solutions

Concerto's storage elements accommodate the information-driven workplace with a range of flexible filing solutions. Fully finished box drawers in both lateral and pedestals, feature full extension glides with a ball bearing ride for years of flawless operation.

All of **Concerto's** elements have a smooth radius profile on their top surfaces, giving the stand alone component a tailored look. **Concerto's** corner unit gives ample working area for accommodating all your essential computer needs. Again, proving **Concerto's** multiple use of function and form.

Meeting of the Minds

Concerto conferencing suites bring together team interaction... Storage and display units give a distinctive perspective on design with an emphasis on efficiency. The handsome hardwood ash veneer on table tops adds to the gracious prestige and distinctive lines, unlike any other.

The pre-configured display unit shown here allows for the flexibility of a functional, yet very versatile wall. This unit can meet most storage requirements from the typical management of media to the storage of garments...demonstrating mind over matter!

Office Essentials

The office environment has evolved into a new era where high tech equipment has become common. **Concerto** office products meet the demand of providing for this change and still accommodate the look and feel of the traditional office.

Concerto provides that transition point of departure. Innovative items like the executive conferencing desk, the very flexible kneehole credenza and the two door wardrobe are just a few examples of how **Concerto** has met this challenge.

LATERAL FILES

Two, Three and Four Drawer Units

Filing Logic

A wide range of lateral files are available to complete the total visual and functional perception of **Concerto**. This filing was engineered to meet and exceed your fundamental requirements. These files were designed with central loading features that fulfill your expectations for a supportive office environment. Paper management for hanging files is provided for each drawer. UNICOR's family of filing products closes the loop from function to aesthetics, making it the smart choice for your office.

Savvy Details

Concerto's attention to detail cannot be denied. From the integrated wire management to the glide away keyboard feature of the Composer Keyboard, this transitional casegood line has embodied some of the most innovative features and functions. The **Concerto** product will appreciate with time not depreciate, insuring your lasting value.
