

FPI offers retrofitting and up-fitting of new vehicles as well as manufacturing of custom components. Our custom production lines include complete law enforcement packages, including K-9 vehicle packages, for pickup trucks and sport utility vehicles. Packages include items such as security partitions; shot gun racks; strobe lights; siren control heads; first aid/emergency kits; speakers; and tint and striping/markings. We also retrofit buses and vans for secured inmate/detainee transport vehicles.

WHY SPECIFY FPI PRODUCTS & SERVICES?

- No 3-quote purchasing requirements
- Competitive pricing
- Single requisition for products and services
- Certified parts
- Work fully guaranteed
- All warranties honored
- One-stop shopping
- One invoice convenience

So when your mission requires high quality, cost-effective remanufacturing and retrofit services, make FPI your first choice. If you need more information, please contact the UNICOR representative listed below. He'll be happy to help.

Your job is to be ready for the mission. Ours is to give you the tools, service and support to help you meet your goal. FPI is the leading federal source for high-quality, vehicle identity, retrofitting and component services.

FPI fleet facilities are fully equipped with today's state-of-the-art manufacturing, painting and coating technologies, and our highly trained workforce offers a level of service and attention to detail not often found in the commercial marketplace.

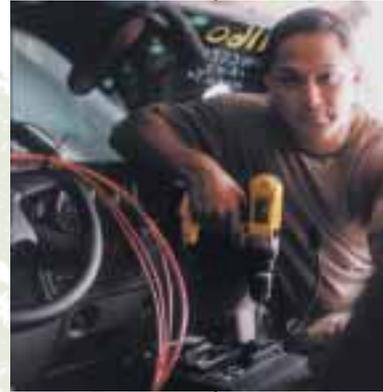

All work is fully warranted and all parts are OEM spec or higher. FPI is focused on training and motivated by customer satisfaction and is able to retrofit and return your equipment to service at less cost and in a shorter time frame than a commercial vendor.

When you choose FPI, you are partnering with a service provider that has a unique understanding of the Federal environment and broad experience across DOD and Civilian Agency fleets. Because we are a corporation wholly owned by the Federal government, FPI can offer you the convenience of an expedited purchase, cutting out much of

the time and red tape involved in commercial contracting, and the ability to customize our manufacturing services to meet your particular requirements. Take a moment to review the expanded new vehicle and custom vehicle retrofitting service offerings on the following pages. Remember, if you don't see what you're looking for, please contact our New Business Development Representative. We would be happy to provide a customized service solution.

CUSTOM COMPONENT OPTIONS

Custom component options include grill guards; cargo barriers; computer mounts; window security screens; rear security doors; rear deck lights; truck vault storage; and security components.

FLEET MANAGEMENT SERVICES VEHICLE MAINTENANCE TRACKING

A strong partnership between FPI and Maximus means that our customers have access to the latest technology to maintain their fleet operations. This Internet-based reporting system features procurement tracking, asset management, bar codes for auto input, workflow and personnel management, plus a fully integrated fuel management system. All packages are custom configured to meet your specific operational needs.

QUALITY ASSURANCE

Delivering products of the highest quality is a cornerstone of the FPI philosophy, and a key to our customer's success. To help ensure quality, all test, measurement and diagnostic equipment is calibrated in accordance with ANSIZ540 standards. Many FPI facilities are ASE certified and currently completing ISO certification, and all employ a workforce of highly trained mechanics. You can be confident that we do everything possible to meet your requirements and stand behind our work with full warranties and guarantees.

LOCATION SERVICES

FPI can quickly provide customized programs and manufacturing solutions to meet your agency's particular requirements. Examples include:

FCI Bastrop—Our facility in Bastrop, Texas, retrofits law enforcement utility and specialty vehicles for the Department of Homeland Security, retrofitting between 150 and 280 vehicles per month. In addition to retrofit operations, the factory has a full metal fabrication and research and development section.

FCI LaTuna—The canine vehicle program at our LaTuna Texas facility has retrofitted over 100 Dodge Durango vehicles for the Border Patrol, National Canine Facility. The K-9 units are constructed with a solid aluminum kennel, complete with a temperature sensor and alarm warning.

FCI Three Rivers—The FCI Three Rivers facility, south of San Antonio, Texas, specializes in retrofitting detainee transport vehicles for the Bureau of Immigration and Customs Enforcement. Additionally, Three Rivers also operates FPI's vehicle maintenance information center, tracking vehicle maintenance costs, life cycle costs, warranty history, and manufacturer recalls.
