

UNICOR is a leader in eco-sensitive practices, manufacturing processes, products and services.

green trends

RECYCLING OPERATIONS

Life extension capabilities ~ Call 202.353.2091 for more details and drop off locations
Computer electronics refurbished/de-manufactured for reuse and land avoidance.
Donations accepted from public organizations, private companies and government agencies.

Facilities certified to the R2-2013 Standard (Responsible Recycling Practices for Electronics Recyclers).

OFFICE FURNITURE and FURNISHINGS

Health-conscious office spaces and environmental stewardship

Powder-coated metal components.

Low energy, long life LED desk lighting.

Non-VOC water-based finishes and glues.

Fabrics up to 100% recycled fiber content.

Up to 85% recycled content steel components.

20% post-industrial recycled material laminates.

Compliant with BIFMA's low emitting furniture standards.

SCS Gold and Environmental Institute Certifications.

E3 Level Certified Systems Metal factory.

MISCELLANEOUS SERVICES

See and breathe green

Vegetable and soy-based printing inks.

Architectural signs from recycled plastics.

Use of recycled paper in printing operations.

Chemically-inert inks for screen printed decals and emblems.

Air filtration for office buildings, facilities, museums, hospitals, etc.

Clothes hanger recycling operations for reuse.

CLOTHING and TEXTILES

"In the loop" supply chain sustainability

Scrap baling and sales to recyclers.

Recycled cotton fill in mattresses.

ELECTRONICS, VEHICULAR and ENVIRONMENTAL OPERATIONS

Energy conservation and "like new" results

Solar panel operations.

Low energy consumption facilities lighting.

Remanufactured/rebuilt HUMVEES and other military tactical wheeled vehicles.

Biodegradable cleaners and environmentally-sound wash booths to filter/recycle water.

Committed to doing our part to create an earth-friendly, eco-sensitive and healthy workplace with the world in mind.

The Government's Greening Initiative is far from new to us!

- In the past five years UNICOR has recycled approximately 195 million pounds of computers, related electronics and other communications devices.
- More than 97,000 tons of excess electronics equipment have been kept from America's landfills by UNICOR.
- We comply with all applicable federal, state and local environmental laws and mandates including:

CAA: Clean Air Act

RCRA: Resource Conservation and Recovery Act

CWA: Clean Water Act

OSHA: Occupational Safety and Health Act

CERCLA: Comprehensive Environmental Response, Compensation and Liability Act

Do you speak Green?

Sustainability: Meeting present day needs without compromising the ability of future generations to meet their own needs.

Reclamation: Restoration of materials found in the waste stream to beneficial use, serving like or different purposes.

VOCs: Volatile Organic Compounds are those in which atmospheric photochemical reactions occur (unless identified by the EPA as having negligible reactivity).

Ecology: The relationship of living things to both each other and their environments.
