PERFORMANCE.
QUALITY. DESIGN.

The dynamics of office environments which serve the public are evolving. Everyone is being challenged to do more with less.

OFG is responding with workstations, seating and other office components designed to increase efficiency, inspire collaboration and serve ergonomic well-being.

By working closely with the industry's leading commercial designers and manufacturers, OFG is proud to offer a comprehensive line of the most contemporary, forward-thinking office solutions.

OFG is a commitment to people. A belief in excellence. A different kind of furniture company.

Purchasing Office Furniture should be:

- Simple
- Quick
- Affordable

LAMINATE CASEGOODS

HARMONY

Harmony offers user-friendly functionality and sophisticated styling in a contemporary office environment. Harmony features a black ribbed or flat edge band and streamlined hardware which accent the beautiful and highly durable wood grain and textured laminate finishes.

Flexible collaboration drives the very essence of Harmony. Conference-end desks and D-shaped peninsulas create gathering places in the humblest of workstations. Bow-front desks lend themselves to consultations in managerial and executive layouts.

Meeting spaces are transformed with a host of conference table options that feature the same clean lines and ribbed edge detail. With its versatile collection of modular casegoods, Harmony is the choice everyone can agree on.

LAMINATE CASEGOODS

HARMONY

- 32mm fabrication system assures precision construction and assembly
- Additional holes are drilled for field adjustment of shelf locations
- Wood core construction, (1-1/8" work surfaces, 3/4" panels)
- The high-pressure plastic laminate has a matte finish (0.050" work surfaces, 0.028" vertical panels)
- The black 3mm PVC band has a ribbed edge profile, also customizable in flat black PVC band
- Drawer box sides are 1/2" birch plywood with 1/4" birch plywood bottoms, finished with clear satin lacquer
- Slides are 150-pound rated, ball-bearing, black epoxy powder coated slides with full extension
- All file drawers have locking mechanisms
- Wire Management Grommets are installed for convenient wire routing on desks and credenzas
- Laminates meet NEMA GP50 standards
- Assembled furniture products meet or exceed ANSI/ BIFMA standards

OVERVIEW

HARMONY

Refined and Classic, customizing the style of your workspace starts with the smallest details.

Harmony is a comprehensive line of transitional furniture for a wide range of Federal office environments. The line includes credenzas, desks, work surfaces, transaction components and more. A variety of upper storage units that double as privacy screening can create individual work spaces within open office areas. Storage options include filing cabinets, wardrobes and bookcases. Computer support furniture and conference tables round out the Harmony line to meet the varying needs of today's workplace.

CASEGOODS TABLES

OFG offers a variety of tops and field replaceable bases available in fixed, mobile, folding and nesting styles from contemporary to traditional, designed to match popular OFG product lines or distinct appearances.

Just select a base and a top in the finish you enjoy, to meet your need for:

- Training
- Breakroom and Cafeteria
- Conference
- Occasional
- Adjustable-Height Table/Desk

- All glides adjust from inside making installation even easier
- User-friendly shelving can be adjusted by pulling up and moving forward or backward in one inch increments
- Twenty-gauge steel body with steel top and box frame front and back uprights are notched in 3" intervals for drawer and shelf adjustments
- Locks are standard and feature a high-security single-bit type, random keys in a range of 100 different numbers
- All products are chemically etched prior to painting, enhancing the epoxy powder-paint top coat bonding
- Storage Lockers are made of heavy 22-gauge steel featuring 16-gauge double doors for extra durability
- Both stationary, mobile and hanging products are available, making customizing your workspace easy

OFG offers a variety metal filing systems, cabinets and shelving to meet a variety of needs. Available in solid, open, slotted and grated designs, it's easy to meet your need for:

- Pedestal, Lateral or Vertical Filing Systems
- Bookcases
- Open or Closed Metal Shelving
- Wardrobes and Kiosks

Overview

OFFICE SEATING

OFG offers a range of office seating from top manufacturers with a variety of upholstery options. See OFG Seating Spec Guide & Upholstery Card for more details. Easy to select and configure to meet your need for:

- Big and Tall (up to 450lb capacity)
- Task and Conference (Executive, Ergonomic, Mid-Back and High-Back)
- Guest and Reception Chairs
- Stacking and Nesting (Fixed Legs or Casters)
- Stools (Ergonomic and Adjustable)

Overview LOUNGE

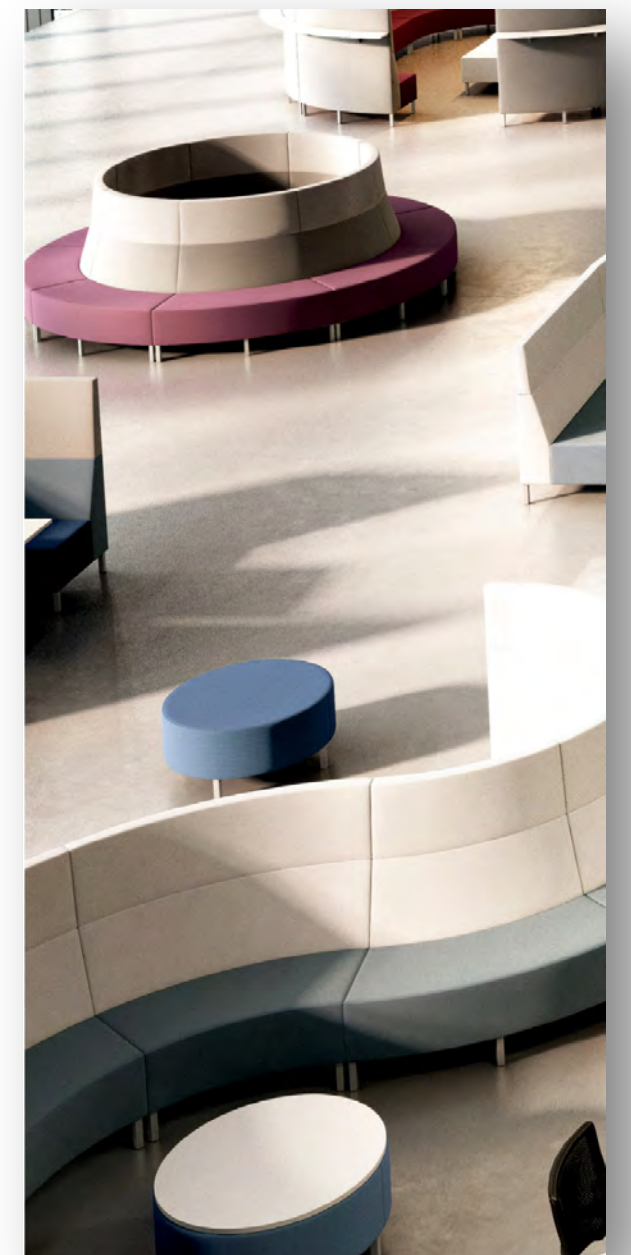

The Lounge Collection adds to space designs the ability to create open, semi-private, or focus-based configurations which can integrate seamlessly with other OFG product offerings with matching upholstery.

See OFG Lounge Spec Guide & Upholstery Card for more details.

Easy to select and customize with matching upholstery:

- Modular units that encourage unity and collaboration with varying back heights to add privacy
- Single, dual and tri-toned upholstery focused on friendly seating arrangement
- Integrated designs for high-traffic environments or traditional cushions for a home away from home
- Individualized seating for a subtle way to highlight work and play but maintaining a practical design
- Optional power supply encourages productivity wherever you are in your workspace

Optional raceways contain built-in wireways for electrical/data, allowing face-plates to be mounted in line with receptacles.

Aesthetic aluminum power poles enclose top feed conduits from the ceiling to the panel

Channels within the frames hidden by trim pieces guide wires inside and around the furniture.

SYSTEM FURNITURE

CLASSIC XXI

PANELS

Classic XXI's tempered glass panels and transaction counters facilitate communication even as fabric panels give a measure of privacy. Fabric acoustical panels contain three layers of fiberglass insulation meaning the only person who will hear your fingers tapping is you.

OFG Metal pedestals and 2-drawer lateral files are designed to fit beneath worksurfaces, easily color-matched with OFG finish options. Personal space can also be at a premium, but Classic XXI offers a range of panel hung accessories that maintain an open plan layout.

Coat hooks, tackboards, markerboards, and name plate holders can all be mounted to panels or panel trim. Even unsightly power cables have their place with Classic XXI.

Tool rails allow users to locate paper management components wherever they are most convenient.

Hidden power/data connections in stanchions facilitate the on-the-go user with easy of access

Optional privacy screens are available to offer approaching and side to create study carrels

The open nature of freestanding desking fosters a sense of cooperation in any environment, but its thoughtful features unique to BRAVO that make it ideally suited to the task.

Worksurfaces, overhead storage and optional accessories are easily color-matched with OFG finish and upholstery options making integration into existing interiors effortless. Worksurface grommets and overhead modules maximize usable space on the desktop in either situation without sacrificing power or data connectivity.

A variety of worksurface shapes also make it easy to customize spaces. Piano, square shoe, and P-shaped peninsulas are perfect for spreading out large projects or hosting impromptu meetings, while transitional and full modesty units can be used in combination with rectangular desks to create command centers of all proportions.

SYSTEM FURNITURE

BRAVO

FREESTANDING

The Crescendo Panel System is completely modular in nature, designed for office environments that require frequent reconfiguration. The customization of Crescendo panels stems from separate frame, tile and trim systems that assemble entirely with only a rubber mallet.

Tiles are available in tackable acoustical fabric, upholstered raceway, glass and open styles. Stackable panels can be any combination of these styles. Also, the 'run' of frames can vary in-height which can form junctions in L-shapes, T-shaped intersections and four-way conditions.

Tiles allows an user to make their workspace meet their needs.

Making an open but separate workspace is made possible with the large selection of build-your-own tiles available.

SYSTEM FURNITURE C R E S C E N D O STACKABLE PANELS

Each Crescendo panel can provide power in a number of ways, at varying heights, even multiple locations, or not at all. Power can be accessible at the base, at ADA height, right at the worksurface, or at standing height.

The panels can accommodate accessories both "on-module" as well as "off-module," allowing overheads and panels of different widths to be used together and moved horizontally with minimal effort.

Crescendo is the essence of modularity and reconfiguration simplicity in today's ever changing office environment.

We offer design and space planning services. Products and service solutions are tailored to meet specific needs and create office designs, small and large, to all our customers.

Reasons to Trust **OFG with your Design and Space Planning Services:**

- While each project is unique, we provide more options, product augmentation and product line extensions than anyone else in the industry
- Our purpose-made designs offer a greater return on investment
- Optimized value through a combination of ergonomic products that are easily configured to meet evolving workplace and worker productivity needs
- Design Solutions that are creative, technical, functional, attractive, and beneficial to employees' quality of life and culture
- Designs that adhere to code, regulatory requirements and encourage the principles of environmental sustainability
- Nationwide service availability of interior designers
- A full range of services for projects small and large

DESIGN AND SPACE PLANNING

Many federal agencies find their requirements change.

In these instances, **OFG** offers a reconfiguration design service where we review your original project plans, review current offering, and then proceed to a new design.

Space planning services solutions will reuse as much existing product as possible to minimize costs.

PERFORMANCE. QUALITY. DESIGN.

The Typical Process For Purchasing From Us

1. Request – Your initial call to your local Sales Representative will begin with a thorough review of the your project scope and needs.

2. Pre-Planning – We identify basic needs of your project and constraints that must be addressed for a space to be productive. Detailed measurements and dimensions ensure accurate planning. Initial products and offered finishes are established with you.

See **OFG** Specification Guides and Finish & Upholstery Cards for Offering Details

3. Initial Plan – With your information, we design possible furniture layouts and develop project drawings. Accuracy and completeness is our goal.

4. Review – We will provide the initial drawings to discuss revisions based on your input.

5. Approval – Once you approve the design is accurate and meets the project needs and budget, your design is ready for production.

Installation Services

6a. Project Manager – A representative designated to you will develop an individualized plan, scheduling installation and establish the crew of installation professionals. You tell the project manager when you are ready for us.

7a. Installation Manual – We provide a road map for you and the installation crew to ensure all parties will be satisfied with the process.

8a. Standard Optional Installation Services – Includes delivery, set-up and removal of all packing material and trash

Express Delivery

6b. Product Guide – We provide you with information to establish delivery, installation and warranty guarantee. Includes 24-Hour Notifications at no additional charge upon request.

7b. Delivery – Prices include the cost of standard shipping (*ask about our expedited delivery or special services*). Products are typically delivered shrink-wrapped or boxed individually by a truck with a tailgate, then you take it from there.

SUSTAINABILITY

There's something truly inspiring about creating products that nurture the working world along with the natural world.

The Office Furniture Group is committed to creating a natural, healthy and sustainable office environment by offering products that will help meet the Federal Government's green initiative.

OFG engages in environmentally sound manufacturing processes throughout every phase of production.

OFG makes use of renewable sources and post-consumer materials. Our water-based finishes are free of volatile organic compounds (VOC's). Scrap materials are reused and careful consideration is given to optimize packaging, reducing potential waste.

All of OFG's vendors and partners are based in North America, which means that the materials we use to fulfill your office furniture orders are produced under strict environmental and safety standards which other countries may not meet.

OFG's products are fully compliant with BIFMA's low emitting furniture standards as well as new SCS Gold Certification (SCSGlobal.com) and Environmental Institute Certification (GEI) has been bestowed upon many of our most popular office furniture products.

We are proud to say that organization wide, we have kept more than 97,000 tons of scrap from America's landfills. We have also recycled 1,195 million pounds of computers and other electronic equipment.

Casegoods

- All wood in OFG's casegoods are derived from renewable resources
- OFG products do not use wood from rain forests or virgin forests
- Lumber suppliers are Forest Stewardship Council (FSC) certified (available upon request)
- Laminates contain 20% post-industrial recycled material

ABOUT

Federal Prison Industries (FPI), more widely known by its trade name, UNICOR, was established in 1934 by Executive Order, with a mission to rebuild the lives of individuals who have taken wrong turns in life.

The UNICOR program provides federal adults-in-custody valuable work and life skills which will enhance their prospects for employment and success within our communities, upon release from prison.

UNICOR does not receive government appropriated funds to run its programs and costs the taxpayers nothing. Instead, UNICOR relies upon your purchases to sustain its operations.

BUSINESS OVERVIEW

Our factories maintain the highest standards to ensure safe, clean and efficient operations. Some are ISO9001:2008 certified and engage in Lean Six Sigma business practices to ensure efficient, cost-effective operations and customer service.

Our fully equipped Product Support Center provides testing services and verifies that all of our products meet or exceed commercial office product standards.

As a Federal Government agency, we are able to offer you simplified purchasing and contracting options to facilitate and expedite order placement. We accept payment by government credit card, purchase orders, MOU, MOA, MOV and MIPR. And with a few quick clicks, order status and tracking is a cinch through our online store.

We stand behind every product we sell and are committed to your total satisfaction.

OFG has a nationwide network of professional sales consultants providing worldwide coverage. They are ready to assist, plan, identify and select your next office furniture purchase. These sales consultants are teamed up with professional space planners, designers, project managers and installers to ensure that your project receives the attention it deserves.

For more details and specifics, just go to www.unicor.gov/OFGSalesReps.aspx

Locate your OFG sales consultant for more information on any of our product lines, advanced features and flexible variations available to bring out the beauty, comfort and performance of your workspace.
