Version 2.4

Laminate

Customizable Finish Index

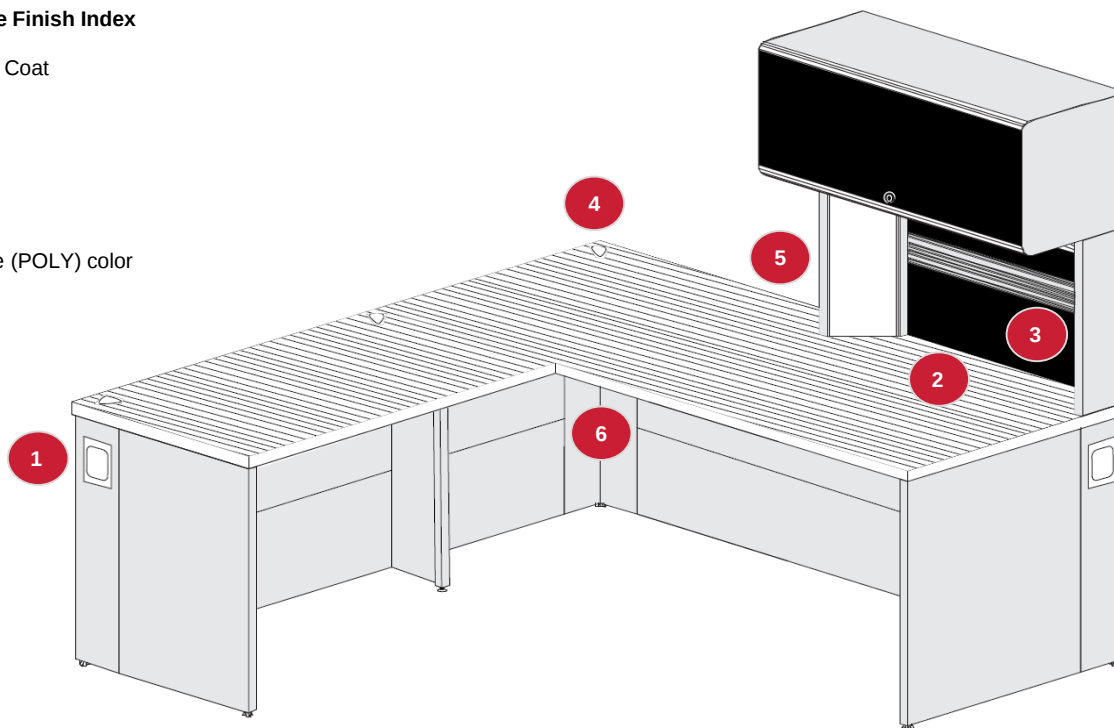

Metal Powder Coat

Upholstery

Laminate

Polypropylene (POLY) color

- Freestanding desking is easy to reconfigure to meet individual needs and offer dynamic work environments, offered in a variety of metal powder coats, fabrics, frame colors and laminate selections

- Designed with power and data in mind, wire troughs, grommets and cord dumps keep cables organized and out of the way

- Bravo easily integrates with other OFG systems furniture: Classic XXI or Crescendo

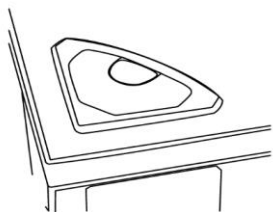

- All required assembly hardware is included

- Bravo is customizable for any office furniture need. The end panels can be removed to allow ganging of standalone desks

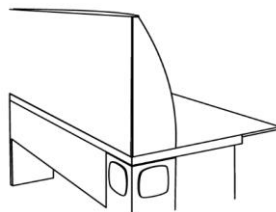

- Modesty panels are available in full and partial configurations, both have a wireway trough for data, communication and power cable management

- Existing desk features designed to attach add-on features such as privacy screens, overhead storage and tool rails, or all three combined

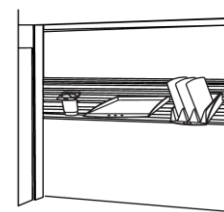

- A large number of finishes are available and easily color coordinated across all products featured in Bravo

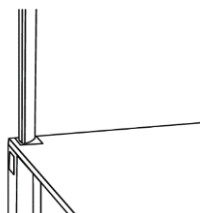

1 Worksurface and Leg Grommets

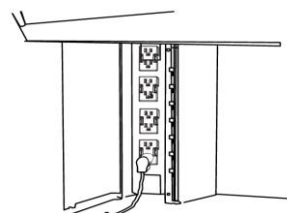

2 Privacy Screens on Worksurfaces

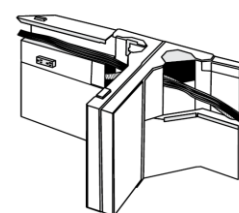

3 Tool Rails, Privacy Screens and Paper Accessories Between Stanchions

4 Above Worksurface Data and Communications Accessories

5 Top Worksurface Power Management Inside Stanchion

6 Concealed Wireways in Leg Assembly

Clerk Station

Product Number • BVRTYP03C | Workspace • 51 sq. ft.

BVRTYP03C w/ Right Return in Finish Combination W34

Total Price: \$

- Laminate surfaces with flat vinyl T-edge
- Laminate overhead units with task lights
- Mobile pedestal: pencil, box, file
- Powered and non-powered options available
- Wire management capabilities in worksurface stanchions
- Wireways concealed by partial modesty panels
- Upholstered privacy screens

Configuration Options

- Choose either Right or Left Return
- Select from three color combinations - See page 6 for more details

Product Details

(General. See product pages for more)

- Worksurface tops are 1-1/8" thick density particleboard with .03" or .04" high pressure laminate surface and .02" to .04" phenolic backing sheet with customizable colors
- Top has a flat PVC edge and is 29" in height
- Each leg assembly consists of welded and assembled components which can be removed from the front of the leg to gain entry to run power and data running within the leg
- A glide attached to the bottom of the leg allows 1-1/8" of adjustability
- Desk leg formed of 18-gage steel, overall dimensions are 6" x 6" x 27-1/4"

Notes:

- Product dimensions shown in approximate inches
- Building connection hardware must be supplied by customer
- Add-On Worksurfaces and Overhead storage units must match workspace dimensions
- See page 70 for Polypropylene and Metal Powder Coat Finish selections
- See pages 69-70 for Laminate and Upholstery Finish information
- Wire styles must match on all electrical components (see pages 63-68)

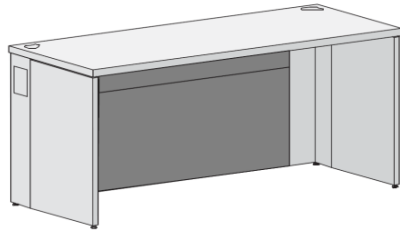

Desks • Rectangular Worksurfaces

BRAVO

w/ S End Panel Option

Rectangular Freestanding Worksurface w/ Full Modesty Panels

- Consists of top, two legs and full modesty back panel
- Modesty side panels (standard shown, see options)
- Each leg has two cable access grommet locations
- Top has two cable access grommets above the legs (66" and 72" have a third middle grommet)

Product Details

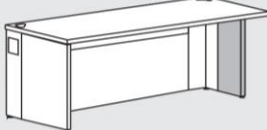

(Specific to this page. See Overview for more)

- Modesty panel attached to the underside of the worksurface and leg assembly allows basic cabling to be run along the width of the desk

Product Details

- (Specific to this page. See Overview for more)
- Worksurface has the same basic construction as rectangular worksurfaces, also 29" in height
 - Modesty Panel allows basic cabling to be run along the width of the desk
 - Additional 4" support leg constructed of 14-gage steel, and have a 1-1/8" adjustable steel glide
 - If attached to another worksurface, transitional end panels may be ordered to replace standard end panels to attach both worksurfaces
 - Front working edge will have a 16" or 22" radius depending on the size of the worksurface

Product Details

- End Panels are constructed of 14- gage steel, with a powder coat finish
- Shelf is an 18-gage steel weldment with a powder coat finish
- Front edge of the shelf has a PVC extrusion that also provides space for a concealed flush mount task light
- Included stanchions are made of 16- gage steel and have 4 cutouts that can accommodate either commercially available data plates or Removable Power Taps (RPT)
- Overhead support stanchion covers are made of extruded plastic and available in standard Polypropylene colors
- Flexible rubber Polypropylene piece allows power or data cables to be run from the worksurface into the overhead support stanchions
- Shelf dividers are available and easily installed, adjusted with incremental slots

BRAVO

Product Details (Specific to this page)

- Tool rail is fabricated from a powder coated aluminum extrusion with injection molded plastic end caps
- Attaches to the workstation in one of two options. Option one is to attach the tool rail to the overhead storage supports through the use of selflocking steel brackets. Option two is to attach the tool rail to desk mounted brackets
- Mounted brackets are 15-3/4" high, non handed, and constructed of 16-gage steel. Tool rail is 4-1/2" high and 7/8" deep, with the length corresponding to the worksurface width minus the width of the overhead supports
- Multiple combinations of paper management units can hang on the bar in any of 4 vertical locations
- All components are made of injection molded ABS plastic

Frame Options on All Bravo Privacy Screens

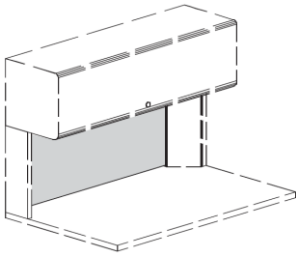

- All Bravo Privacy Screens come with three frame options:

Choose between a translucent frame (TF), exposed frame (EF), and an upholstered frame (UF)

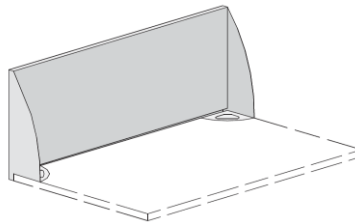

Privacy Screens available in the following categories:

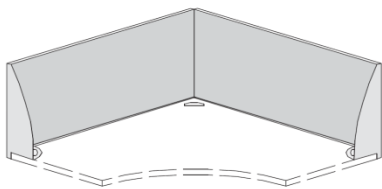

Between Stanchion

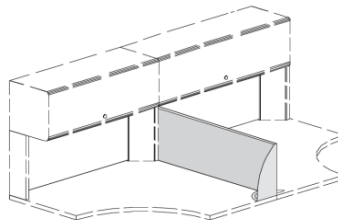

Behind Worksurface

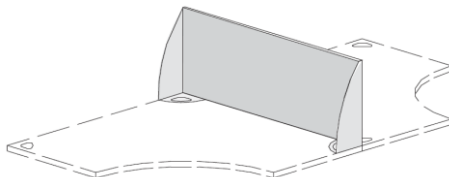

Behind Worksurface (Corner)

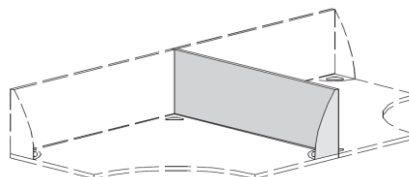

Between Two Stanchions and On-Worksurface

On-Worksurface

On-Worksurface (Corner)

Product Details

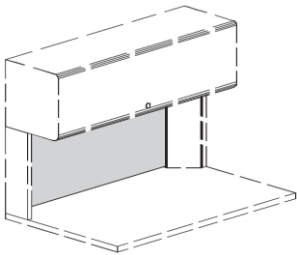

(General. See product pages for more)

- Provide sit down or stand up privacy within the Bravo workstation
- Privacy screens and brackets consist of different aluminum extrusion profiles, iron core light or thick nontackable translucent plastic
- Frames are made of extruded aluminum that is .060" in. thick and 1-2/5" wide, height determined by screen type
- Mounting brackets extrusions are formed of 16-gage steel and have a length determined by screen option and desk size

Notes:

- Product dimensions shown in approximate inches
- Building connection hardware must be supplied by customer
- Add-On Worksurfaces and Overhead storage units must match workspace dimensions
- See page 70 for Polypropylene and Metal Powder Coat Finish selections
- See pages 69-70 for Laminate and Upholstery Finish information
- Wire styles must match on all electrical components (see pages 63-68)

BVSBS1924 w/ TF

Between Stanchion Mounted Screen w/ Frame Options

Product Details (Specific to this page. See Overview for more)

- Mounts above the worksurface, using the stanchions of overhead storage units, closing the gap between the two products
- The 66" and 72" widths are a pair of screens with splice extrusions: (1) 30" plus (1) 36" screen for 66" applications and (2) 36" screens for 72" applications
- May be used to provide privacy between two worksurfaces placed back to back
- 3/4" thick and 19" high, available in widths to fit all worksurfaces
- Designed for straight-line applications
- Configurable to match the worksurface (see options)

BVCOMCP7

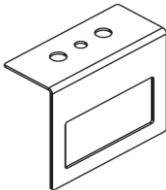

Communications Pole

- Aluminum 2-channel power pole and ceiling Polypropylene
- Attaches to the desk at a corner grommet location with customizable color
- Used to route cables from a ceiling feed point to the worksurface below

Product Number	Length	Pricing
BVCOMCP7	7 ft.	\$
BVCOMCP10	10 ft.	\$

BVCOMFB

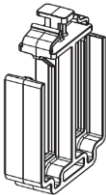

Face Plate Bracket

- Bracket allows TIA/EIA standard face plate to mount below the desk
- All metal construction
- Additional hardware for data/communication sold separately

Product Number	Width	Length	Pricing
BVCOMFB	1-3/8"	2-3/4"	\$

460099PCK

Cable Support

- Plastic hook attaches inside modesty panel to assist in the routing of cables
- Only available in black

Product Number	Units	Pricing
460099PCK	25	\$

Product Details (Specific to this page)

- **Communication Pole** body is made of extruded aluminum, 16-gage, overall approximate dimensions are 1-3/4 x 3-1/2., with two cavities for physical power and data separation, length of top feed harness is 12'
- A plastic Polypropylene piece will cover the area where the pole intersects the ceiling
- **Face Plate Bracket** accepts several different manufactures' power and data face-plates, normally attached to the underside of the modesty panel near the worksurface utilizing **Cable Supports** to manage the wireways

Product Code	BVET4RC1
Poly Color	G
BVET4RC1 G	

BRAVO

Product Details (Specific to this page)

- 10-wire system is available in two configurations (6-2-2 and 4-4-2)
- UL label is green for 6-2-2 and blue for 4-4-2 applications
- Bravo 10-wire electrical is able to integrate with existing Crescendo and Classic System Panels
- Rated at 120 vAC @ 20 amps
- All receptacles rated at 15 amps
- Different receptacles for each system, and different connectors specific to each system
- Poly colored “convenience” circuits (1 & 2) have a hot wire with shared oversized neutral wire & building ground wire
- “Isolated ground” circuits colored orange (3 & 4) have separate hot wires, shared oversized neutral wire & share an isolated ground wire

BVESR36

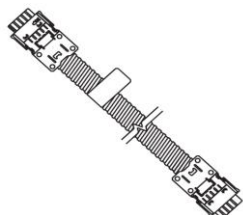

Stanchion Power Tap

- Provides a duplex 15 amp receptacle behind a desk stanchion door
- 36" used to connect to rigid wireway receptacle
- 96" used to connect adjacent desk wiring

Product Number	Length	Pricing
BVESR36	36"	\$
BVESR96	96"	\$

BVET4DJST

Desk Jumper

- Includes jumper harness to make electrical connection between adjacent desks

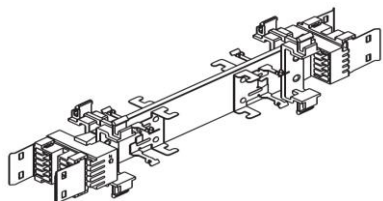

Product Number	Size	Pricing
BVET4DJST	Standard	\$
BVET4DJ24	24"	\$
BVET4DJ30	30"	\$

How to Order

Product Code	BVESR36
BVESR36	

Components • Electrical (4-4-2 Circuit)

BVET4RW30

Rigid Wireway

- Includes harness and steel wireway cover
- Allows two duplex receptacles (ordered separately)
- 72"D allows four possible receptacle locations
- Desk worksurface must match length

Configuration

Metal Color Selection
