CLASSIC XXI

1 Unique Heights for Dynamic Environments

2 Off-Module Panels for Endless Combinations

3 On-Module Overheads, Tackboards, Tool Rails and Worksurfaces

4 Panel-to-Panel Power laid power management customizable

9 Universal Base Feed for Standalone Powered Furniture

8 Secure small item storage simply with lockable cabinets and overheads

Customization Finish Index

[Metal Powder Coat]	Metal Powder Coat
[Upholstery]	Upholstery
[Laminate]	Laminate
[Plastic propylene (POLY) Color]	Plastic propylene (POLY) Color
[Glass, Tackboard Toolrail and Markerboard]	Glass, Tackboard Toolrail and Markerboard

7 Worksurface Solutions with Support Panels

6 Matching Finish Options across all OFG System Furniture

5 Cantilever Worksurfaces

- Assemble and disassemble 'modules' with segmented and stackable panels assembled in any combination, allowing on-module and off-module accessories matching OFG System Finishes
 - Accommodates all standard types of cables, easily customized and accessed in the steel frame with "U" channels for laid management
 - Solid panel construction can support worksurfaces, shelves and overhead cabinets all 'on-module'
-
- Panels consist of frames, gussets and "finish," offering rigid, acoustical properties from their construction
 - All cables are laid into the system without threading through the frame to greatly enhance the ability to reconfigure the system with minimal disruption and downtime
 - Accommodates accessories both "on-module" and "off-module," allowing overheads and panels of different widths to be used together and moved horizontally with minimal effort

- NOTES:**
- Product dimensions are given in approximate inches
 - Appearance of product may vary from descriptions
 - When ordering Fabric Panels, the higher grade value will determine the price quote
 - Power accessories and Vertical posts are sold separately
 - Noise Reduction Coefficient is based on the test method ASTM C-423
 - Review finish options on pg. 76, Or see OFG Finish and Upholstery Card

Panel • Overview

Cable management easily achieved throughout the panel perimeter

Top caps (PVC or metal) cover cable access

Panel and ceiling cabling connected by data & power communication pole

Base raceway knockouts with bezel, base feeds & filler plates

CLASSIC XXI

- Assemble and disassemble 'modules' with segmented and stackable panels assembled in any combination, allowing on-module and off-module accessories matching OFG System Finishes
- Accommodates all standard types of cables, easily customized and accessed in the steel frame with "U" channels for laid management
- Solid panel construction can support worksurfaces, shelves and overhead cabinets all 'on-module'

End Conditions

Included glide supports panels

Simply laid power system connects panels in any configuration

In-Line Runs

Dynamic Height Variations

- All modular panel system components originate from ISO 9000, ISO 9001, or ISO 9002 registered facilities
- UNICOR CLASSIC XXI SYSTEM MEETS OR EXCEEDS THE REQUIRED ANSI/BIFMA X5.6-2010 PANEL SYSTEM TESTS
- Classic XXI System panels are Listed to applicable U.S. and Canadian safety standards and requirements by Underwriters Laboratories Inc.
- Two of the standards used to evaluate are UL 1286, Office Furnishings and UL 723 (ASTM E84 & National Fire Protection Association Life Safety Code 255), Standard for Test for Surface Burning

NOTES:

- Product dimensions are given in approximate inches
- Appearance of product may vary from descriptions
- When ordering Fabric Panels, the higher grade value will determine the price quote
- Power accessories and Vertical posts are sold separately
- Noise Reduction Coefficient is based on the test method ASTM C-423
- Review finish options on pg. 76, Or see OFG Finish and Upholstery Card

Fully configurable to meet all needs

Standalone desking achievable

On-module worksurface supporting

End of Run and off-module support easily added to modules

- Assemble and disassemble 'modules' with segmented and stackable panels assembled in any combination, allowing on-module and off-module accessories matching OFG System Finishes
- Accommodates all standard types of cables, easily customized and accessed in the steel frame with "U" channels for laid management
- Solid panel construction can support worksurfaces, shelves and overhead cabinets all 'on-module'

- Overall panel thickness is 2.5" comprised of panel raceway, trim rails, trim and finish
- Constructed of metal frame, aluminum septum and fiberglass sandwiched between expanded metal, covered with fiberglass and fabric
- Panel raceway is made of 12-gauge steel pan offering support housing to give the panel rigidity and panel-to-panel connections
- Trim rails are extruded aluminum secured by pre-formed flanges, allowing placement of hang-on (on-module) components in 1" vertical increments
- Trim is made of rigid material either metal powder-coated (metal) or polypropylene color (plastic) with a press-fit design
- Upholstery finish is held in place by elastic extruded spline rolled into welting groove and field replaceable

NOTES:

- Product dimensions are given in approximate inches
- Appearance of product may vary from descriptions

TO ORDER:

Select the product number and then add the codes for Trim Style, Color Selection, Fabric Option and Base Configuration.

For example, to order a **Classic XXI 12" x 32" Standard Raceway Fabric Acoustic Panel (CICP1232)**, w/ **PVC Plastic Trim Style (P)**, **Black Plastic Color (B)**, **8066 Pewter Interlude Fabric (8066)** and **Universal 10-wire, 6-2-2 (T6)**, select:

Trim Style	
M	Metal (Metal Powder-Coat Finish)
P	PVC Plastic

Color Selection (if product contains additional components with a color option, the selection will be matched)	
Plastic Trim Style	Metal Trim Style
Black (B)	Black (27)
Grey (G)	Gray (29)
Light Tone (L)	Light Tone (32)
Sand (S)	Cottonwood (35)
Warm Grey (W)	Sand (28)
	Warm Gray (33)
	Starlight Silver (B)

Fabric Option
See OFG Upholstery Card for offerings.

Product Number	Color Selection	Base Configuration
CICP1232	P B 8066	T6
	Trim Style	Fabric Option

Base Configuration (see Upcharge Pricing)	
TN	Universal non-powered
T4	Universal 10-wire, 4-4-2
T6	Universal 10-Wire, 6-2-2

NOTES:

- Product dimensions are given in approximate inches
- Appearance of product may vary from descriptions
- When ordering Fabric Panels, the higher grade value will determine the price quote
- Power accessories and Vertical posts are sold separately
- Noise Reduction Coefficient is based on the test method ASTM C-423
- Review finish options on pg. 76, Or see OFG Finish and Upholstery Card

Fabric Acoustic Panel

- Full fabric frames on both sides
- Powered and non-powered versions available (see base configuration upgrade kit)
- 4" tall wireway for routing data/communication cables, separated by a continuous steel septum with purchase of T4/T6 Base Configuration
- Powered Base Configuration Kit contents will vary by Panel Width (see below)
- ... 42" & larger Width Panels include Rigid Wireway with Raceway Cover with four access doors (covers included) & Septum Bridge
- 42" & wider panels have a third vertical support to add rigidity and tip-over resistance
- Noise Reduction Coefficient is rated at least 0.75
- Speech Privacy/Noise Isolation Class is ranked 21 at a distance of 7'
- Allows cable management access around the entire perimeter of the panel
- Included glides offer 3-1/2" vertical adjustment (minimum of two)

- When ordering Fabric Panels, the higher grade value will determine the price quote
- Power accessories and Vertical posts are sold separately
- Noise Reduction Coefficient is based on the test method ASTM C-423
- Review finish options on pg. 76, Or see OFG Finish and Upholstery Card

Panel • Acoustic

Base Product (CIEFP)
Assembled View

Extended Raceway Fabric Acoustic Panel

- Full fabric frames on both sides
- Powered and non-powered versions available (see base configuration upgrade kit)
- 8" raceway features two 4" tall wireways separated by a continuous steel septum for routing data/communication cables, and with the purchase of T4/T6 Base Configuration Kit additional items are included
- Powered Base Configuration Kit contents will vary by Panel Width (see below)
- ... 42" & larger Width Panels include Rigid Wireway with Raceway Cover with four access doors (covers included) & Septum Bridge
- Noise Reduction Coefficient is rated at least 0.75
- Speech Privacy/Noise Isolation Class is ranked 21 at a distance of 7'
- Allows cable management access around the entire perimeter of the panel
- Included glides offer 3-1/2" vertical adjustment (minimum of two)

- Assemble and disassemble 'modules' with segmented and stackable panels assembled in any combination, allowing on-module and off-module accessories matching OFG System Finishes
- Accommodates all standard types of cables, easily customized and accessed in the steel frame with "U" channels for laid management
- Solid panel construction can support worksurfaces, shelves and overhead cabinets all 'on-module'
- Overall panel thickness is 2.5" comprised of panel raceway, trim rails, trim and finish
- Constructed of metal frame, aluminum septum and fiberglass sandwiched between expanded metal, covered with fiberglass and fabric
- Panel raceway is made of 12-gauge steel pan offering support housing to give the panel rigidity and panel-to-panel connections
- Trim rails are extruded aluminum secured by pre-formed flanges, allowing placement of hang-on (on-module) components in 1" vertical increments
- Trim is made of rigid material either metal powder-coated (metal) or polypropylene color (plastic) with a press-fit design
- Upholstery finish is held in place by elastic extruded spine rolled into welting groove and field replaceable

TO ORDER:

Select the product number and then add the codes for Trim Style, Color Selection, Fabric Option and Base Configuration.

For example, to order a **Classic XXI 42" x 36" Extended Raceway Fabric Acoustic Panel (CIECP4236)**, w/ **PVC Plastic Trim Style (P)**, **Black Plastic Color (B)**, **8066 Pewter Interlude Fabric (8066)** and **Universal 10-wire, 6-2-2 (T6)**, select:

Trim Style	
M	Metal (Metal Powder-Coat Finish)
P	PVC Plastic

Color Selection (if product contains additional components with a color option, the selection will be matched)	
Plastic Trim Style	Metal Trim Style
Black (B)	Black (27)
Grey (G)	Gray (29)
Light Tone (L)	Light Tone (32)
	Cottonwood (35)
Sand (S)	Sand (28)
Warm Grey (W)	Warm Gray (33)
	Starlight Silver (B)

Fabric Option
See OFG Upholstery Card for offerings.

Product Number	Color Selection	Base Configuration
CIECP4236	P B 8066 T6	
	Trim Style	Fabric Option

Base Configuration (see Upcharge Pricing)	
TN	Universal non-powered
T4	Universal 10-wire, 4-4-2
T6	Universal 10-Wire, 6-2-2

NOTES:

- Product dimensions are given in approximate inches
- Appearance of product may vary from descriptions
- When ordering Fabric Panels, the higher grade value will determine the price quote
- Power accessories and Vertical posts are sold separately
- Noise Reduction Coefficient is based on the test method ASTM C-423
- Review finish options on pg. 76, Or see OFG Finish and Upholstery Card

TO ORDER:

Select the product number and then add the codes for Trim Style, Color Selection, Fabric Option, Laminate Option and Base Configuration.

For example, to order a **Classic XXI 12" x 32" Standard Raceway Fabric and Laminate Panel (CICPFL1232)**, w/ **PVC Plastic Trim Style (P)**, **Black Plastic Color (B)** **8066 Pewter Interlude Fabric (8066)**, **Biltmore Cherry Laminate Finish (4031)** and **Universal 10-wire, 6-2-2 (T6)**, select:

Trim Style	
M	Metal (Metal Powder-Coat Finish)
P	PVC Plastic

Color Selection (if product contains additional components with a color option, the selection will be matched)	
Plastic Trim Style	Metal Trim Style
Black (B)	Black (27)
Grey (G)	Gray (29)
Light Tone (L)	Light Tone (32)
Sand (S)	Cottonwood (35)
Warm Grey (W)	Sand (28)
	Warm Gray (33)
	Starlight Silver (B)

Fabric Option	
See OFG Upholstery Card for offerings.	

Laminate Option	
See OFG Finish Card for offerings.	

Product Number	Color Selection	Laminate Option
CICPFL1232	P B 8066 4031	T6
	Trim Style	Fabric Option

Base Configuration (see Upcharge Pricing)	
TN	Universal non-powered
T4	Universal 10-wire, 4-4-2
T6	Universal 10-Wire, 6-2-2

NOTES:

- Product dimensions are given in approximate inches
- Appearance of product may vary from descriptions
- When ordering Fabric Panels, the higher grade value will determine the price quote
- Power accessories and Vertical posts are sold separately
- Noise Reduction Coefficient is based on the test method ASTM C-423
- Review finish options on pg. 76, Or see OFG Finish and Upholstery Card

Panel • Fabric & Laminate

Standard Raceway Fabric and Laminate Panel

- Constructed of a metal frame with fiberglass sandwiched between Masonite skins covered with fiberglass and finished (fabric & laminate)
- Powered and non-powered versions available (see base configuration upgrade kit)
- 4" tall wireway for routing data/communication cables, separated by a continuous steel septum with purchase of T4/T6 Base Configuration
- Powered Base Configuration Kit contents will vary by Panel Width (see below)
- ... 42" & larger Width Panels include Rigid Wireway with Raceway Cover with four access doors (covers included) & Septum Bridge
- Third vertical support to add rigidity and tip-over resistance
- Allows cable management access around the entire perimeter of the panel
- Included glides offering 3-1/2" vertical adjustment (minimum of two)

- Assemble and disassemble 'modules' with segmented and stackable panels assembled in any combination, allowing on-module and off-module accessories matching OFG System Finishes
- Accommodates all standard types of cables, easily customized and accessed in the steel frame with "U" channels for laid management
- Solid panel construction can support worksurfaces, shelves and overhead cabinets all 'on-module'
- Overall panel thickness is 2.5" comprised of panel raceway, trim rails, trim and finish
- Constructed of metal frame, aluminum septum and fiberglass sandwiched between expanded metal, covered with fiberglass and fabric
- Panel raceway is made of 12-gauge steel pan offering support housing to give the panel rigidity and panel-to-panel connections
- Trim rails are extruded aluminum secured by pre-formed flanges, allowing placement of hang-on (on-module) components in 1" vertical increments
- Trim is made of rigid material either metal powder-coated (metal) or polypropylene color (plastic) with a press-fit design
- Upholstery finish is held in place by elastic extruded spine rolled into welting groove and field replaceable

TO ORDER:

Select the product number and then add the codes for Trim Style, Color Selection, Fabric Option, Laminate Option and Base Configuration.

For example, to order a **Classic XXI 42" x 32" Standard Raceway Fabric and Laminate Panel (CICPFL1232)**, w/ **PVC Plastic Trim Style (P)**, **Black Plastic Color (B) 8066 Pewter Interlude Fabric (8066)**, **Biltmore Cherry Laminate Finish (4031)** and **Universal 10-wire, 6-2-2 (T6)**, select:

Trim Style	
M	Metal (Metal Powder-Coat Finish)
P	PVC Plastic

Color Selection (if product contains additional components with a color option, the selection will be matched)	
Plastic Trim Style	Metal Trim Style
Black (B)	Black (27)
Grey (G)	Gray (29)
Light Tone (L)	Light Tone (32)
Sand (S)	Cottonwood (35)
Warm Grey (W)	Sand (28)
	Warm Gray (33)
	Starlight Silver (B)

Fabric Option	
See OFG Upholstery Card for offerings.	

Laminate Option	
See OFG Finish Card for offerings.	

Product Number	Color Selection	Laminate Option
CICPFL4232	P B 8066 4031 T6	
	Trim Style	Fabric Option
		Base Configuration
TN	Universal non-powered	
T4	Universal 10-wire, 4-4-2	
T6	Universal 10-Wire, 6-2-2	

NOTES:

- Product dimensions are given in approximate inches
- Appearance of product may vary from descriptions
- When ordering Fabric Panels, the higher grade value will determine the price quote
- Power accessories and Vertical posts are sold separately
- Noise Reduction Coefficient is based on the test method ASTM C-423
- Review finish options on pg. 76, Or see OFG Finish and Upholstery Card

Base Product (CICGFP)
Assembled View

Standard Raceway Glass/Fabric Panel

- Fabric finish at 29" high & lower
- Painted aluminum frame with 1/4" thick glass above 29" high (see options)
- Powered and non-powered versions available (see base configuration upgrade kit)
- 4" tall wireway for routing data/communication cables, separated by a continuous steel septum with purchase of T4/T6 Base Configuration
- Powered Base Configuration Kit contents will vary by Panel Width (see below)
 - ... 24" Width Panels include Rigid Wireway with Raceway Cover with two access doors (covers included) & Septum Bridge
 - ... 30" & larger Width Panels include Rigid Wireway with Raceway Cover with four access doors (covers included) & Septum Bridge
- 42" & wider panels have a third vertical support to add rigidity and tip-over resistance
- Allows cable management access around the entire perimeter of the panel
- Included glides offering 3-1/2" vertical adjustment (minimum of two)

- Assemble and disassemble 'modules' with segmented and stackable panels assembled in any combination, allowing on-module and off-module accessories matching OFG System Finishes
- Accommodates all standard types of cables, easily customized and accessed in the steel frame with "U" channels for laid management
- Solid panel construction can support worksurfaces, shelves and overhead cabinets all 'on-module'
- Overall panel thickness is 2.5" comprised of panel raceway, trim rails, trim and finish
- Constructed of metal frame, aluminum septum and fiberglass sandwiched between expanded metal, covered with fiberglass and fabric
- Panel raceway is made of 12-gauge steel pan offering support housing to give the panel rigidity and panel-to-panel connections
- Trim rails are extruded aluminum secured by pre-formed flanges, allowing placement of hang-on (on-module) components in 1" vertical increments
- Trim is made of rigid material either metal powder-coated (metal) or polypropylene color (plastic) with a press-fit design
- Upholstery finish is held in place by elastic extruded spine rolled into welting groove and field replaceable

TO ORDER:

Select the product number and then add the codes for Trim Style, Color Selection, Fabric Option and Base Configuration.

For example, to order a **Classic XXI 24" x 54" Standard Raceway Fabric Acoustic Panel (CICGFP2454)**, w/ **PVC Plastic Trim Style (P)**, **Black Plastic Color (B)** **8066 Pewter Interlude Fabric (8066)** and **Universal 10-wire, 6-2-2 (T6)**, select:

Trim Style

- Assemble and disassemble 'modules' with segmented and stackable panels assembled in any combination, allowing on-module and off-module accessories matching OFG System Finishes
- Accommodates all standard types of cables, easily customized and accessed in the steel frame with "U" channels for laid management
- Solid panel construction can support work surfaces, shelves and overhead cabinets all 'on-module'
- Overall panel thickness is 2.5" comprised of panel raceway, trim rails, trim and finish
- Constructed of metal frame, aluminum septum and fiberglass sandwiched between expanded metal, covered with fiberglass and fabric
- Panel raceway is made of 12-gauge steel pan offering support housing to give the panel rigidity and panel-to-panel connections
- Trim rails are extruded aluminum secured by pre-formed flanges, allowing placement of hang-on (on-module) components in 1" vertical increments
- Trim is made of rigid material either metal powder-coated (metal) or polypropylene color (plastic) with a press-fit design
- Upholstery finish is held in place by elastic extruded spine rolled into welting groove and field replaceable

TO ORDER:

Select the product number and then add the codes for Trim Style, Color Selection, Fabric Option and Base Configuration.

For example, to order a **Classic XXI 24" x 42" Standard Raceway Bottom Open Frame Panel** (CIBOFP2442), w/ **PVC Plastic Trim Style** (P), **Black Plastic Color** (B), **8066 Pewter Interlude Fabric** (8066) and **Universal 10-wire, 6-2-2** (T6), select:

Trim Style	
M	Metal (Metal Powder-Coat Finish)
P	PVC Plastic

Color Selection (if product contains additional components with a color option, the selection will be matched)	
Plastic Trim Style	Metal Trim Style
Black (B)	Black (27)
Grey (G)	Gray (29)
Light Tone (L)	Light Tone (32)
	Cottonwood (35)
Sand (S)	Sand (28)
Warm Grey (W)	Warm Gray (33)
	Starlight Silver (B)

Fabric Option
See OFG Upholstery Card for offerings.

Product Number	Color Selection	Base Configuration
CIBOFP2442	P B	8066 T6
	Trim Style	Fabric Option

Base Configuration (see Upcharge Pricing)	
TN	Universal non-powered
T4	Universal 10-wire, 4-4-2
T6	Universal 10-Wire, 6-2-2

NOTES:

- Product dimensions are given in approximate inches
- Appearance of product may vary from descriptions
- When ordering Fabric Panels, the higher grade value will determine the price quote
- Power accessories and Vertical posts are sold separately
- Noise Reduction Coefficient is based on the test method ASTM C-423
- Review finish options on pg. 76, Or see OFG Finish and Upholstery Card

Standard Raceway Bottom Open Frame Panel

- Used when panels will cover items on the building wall that need to be accessed (heating, A/C, data and electrical boxes)
- Painted aluminum frame on the bottom half, the top half has a fabric finish
- Powered and non-powered versions available (see base configuration upgrade kit)
- 4" tall wireway for routing data/communication cables, separated by a continuous steel septum with purchase of T4/T6 Base Configuration
- Powered Base Configuration Kit contents will vary by Panel Width (see below)
- 54" & larger Width Panels include Rigid Wireway with Raceway Cover with four access doors (covers included) & Septum Bridge
- Third vertical support to add rigidity and tip-over resistance
- Allows cable management access around the entire perimeter of the panel
- Included glides offering 3-1/2" vertical adjustment (minimum of two)

Color Selection

- Assemble and disassemble 'modules' with segmented and stackable panels assembled in any combination, allowing on-module and off-module accessories matching OFG System Finishes
- Accommodates all standard types of cables, easily customized and accessed in the steel frame with "U" channels for laid management
- Solid panel construction can support worksurfaces, shelves and overhead cabinets all 'on-module'

- Doorways are attached at 80" or 84" configurations and adjustable with carpet glides
- Recommended Door Installation: Install with the hinge side at a 90 degree corner, 3-way, 4-way or wall mount conditions
- Meets ADA requirements with a 36" door width opening
- Door construction is corrugated cardboard honeycomb wrapped by hardwood stiles, MDF rails, faced with hardboard and covered with high-pressure laminate with a powder-coated aluminum to match panel frames

NOTES:

- Product dimensions are given in approximate inches
- Appearance of product may vary from descriptions
- When ordering Fabric Panels, the higher grade value will determine the price quote
- Power accessories and Vertical posts are sold separately
- Noise Reduction Coefficient is based on the test method ASTM C-423

Panel Center Mount
Plan View

Center Mount

- Provides for the attachment of an acoustical, glass or open frame panel at a 90° angle along the face of another acoustical, glass or open frame panel to form a "T" configuration
- Panels must be the same height
- Is not capable of passing power from panel-to-panel
- Purchase according to panel configurations (i.e raceway style)
- Available in black only

DESCRIPTION	PRODUCT NUMBER	HEIGHT	Use with Panel Height		PRICING
			Standard Raceway	Extended Raceway	
Center Mount	CIPCM32	32	32	36	\$
	CIPCM42	42	42	46	\$
	CIPCM48	48	48	52	\$
	CIPCM54	54	54	58	\$

	CIPCM80	80	80	84	\$

- Assemble and disassemble 'modules' with segmented and stackable panels assembled in any combination, allowing on-module and off-module accessories matching OFG System Finishes
- Accommodates all standard types of cables, easily customized and accessed in the steel frame with "U" channels for laid management
- Solid panel construction can support worksurfaces, shelves and overhead cabinets all 'on-module'

- Same Universal Trim as Intersection Conditions
- Panel End Caps made from extruded rigid PVC cover end-of-run cap panels
- In-Line Variable Height Panel End Caps cover vertical posts when in-line panels are of different heights
- Condition Caps (2-way, 3-way and 4-way) cover the gap that exists between panel conditions as 90 degree intersections

TO ORDER:

Select the product number for the desired items.

For example, to order a **Classic XXI 32" Panel Center Mount** (CIPCM32), select:

Product Number
CIPCM32

NOTES:

- Assemble and disassemble 'modules' with segmented and stackable panels assembled in any combination, allowing on-module and off-module accessories matching OFG System Finishes
- Accommodates all standard types of cables, easily customized and accessed in the steel frame with "U" channels for laid management
- Solid panel construction can support work surfaces, shelves and overhead cabinets all 'on-module'
- Same Universal Trim as Intersection Conditions
- Panel End Caps made from extruded rigid PVC cover end-of-run cap panels
- In-Line Variable Height Panel End Caps cover vertical posts when in-line panels are of different heights
- Condition Caps (2-way, 3-way and 4-way) cover the gap that exists between panel conditions as 90 degree intersections

TO ORDER:

Select the product number and then add the codes for Trim Style, Color Selection and Fabric Option.

For example, to order a **Classic XXI Special 10" Variable Height CAC Panel End Cap (CIFECPC3242)**, w/ **PVC Plastic Trim Style (P)**, **Black Plastic Color (B)** and **8066 Pewter Interlude Fabric (8066)**, select:

Product Number	Trim Style	Color Selection	Fabric Option
CIFECPC3242	P	B	8066

Trim Style	
M	Metal (Metal Powder-Coat Finish)
P	PVC Plastic

Color Selection (if product contains additional components with a color option, the selection will be matched)	
Plastic Trim Style	Metal Trim Style
Black (B)	Black (27)
Grey (G)	Gray (29)
Light Tone (L)	Light Tone (32)
Sand (S)	Cottonwood (35)
Warm Grey (W)	Sand (28)
	Warm Gray (33)
	Starlight Silver (B)

Fabric Option
See OFG Upholstery Card for offerings.

NOTES:

- Product dimensions are given in approximate inches
- Appearance of product may vary from descriptions
- When ordering Fabric Panels, the higher grade value will determine the price quote
- Power accessories and Vertical posts are sold separately
- Noise Reduction Coefficient is based on the test method ASTM C-423
- Review finish options on pg. 76, Or see OFG Finish and Upholstery Card

Base Product (UET____EPT)

TO ORDER ITEMS ON THIS PAGE:

Select the product number.

For example, to order a **Classic XXI 4-4-2 24" Pan Retrofit Kit** (4EPR24), select:

Product Number

CIT4EPR24

CLASSIC XXI

- Assemble and disassemble 'modules' with segmented and stackable panels assembled in any combination, allowing on-module and off-module accessories matching OFG System Finishes
- Accommodates all standard types of cables, easily customized and accessed in the steel frame with "U" channels for laid management
- Solid panel construction can support worksurfaces, shelves and overhead cabinets all 'on-module'
- 10-wire system is available in two configurations (6-2-2 and 4-4-2)
- UL label is green for 6-2-2 and blue for 4-4-2 applications
- Classic XXI 10-wire electrical is able to integrate with existing Bravo and Classic System Panels
- Rated at 120 vAC @ 20 amps
- All receptacles rated at 15 amps
- Different receptacles for each system, and different connectors specific to each system
- Plastic colored "convenience" circuits (1, 2, & 3) have a hot wire with shared over-sized neutral wire & building ground wire
- "Isolated ground" circuits colored orange (4, 5 & 6) have separate hot wires, shared over-sized neutral wire & share an isolated ground wire

NOTES:

- Product dimensions are given in approximate inches
- Appearance of product may vary from descriptions
- When ordering Fabric Panels, the higher grade value will determine the price quote
- Power accessories and Vertical posts are sold separately
- Noise Reduction Coefficient is based on the test method ASTM C-423
- Review finish options on pg. 76, Or see OFG Finish and Upholstery Card

CLASSIC XXI

- Assemble and disassemble 'modules' with segmented and stackable panels assembled in any combination, allowing on-module and off-module accessories matching OFG System Finishes
- Accommodates all standard types of cables, easily customized and accessed in the steel frame with "U" channels for laid management
- Solid panel construction can support worksurfaces, shelves and overhead cabinets all 'on-module'
- Worksurfaces should be bought accordingly to matching worksurface width to the panel width when using on-module cantilevers
- Worksurfaces consist of 1-1/4" particleboard with high-pressure laminate
- Laminate worksurface cores are encased in a .028" phenolic backer and a .030" face sheet of high-pressure laminate
- All worksurfaces have an integral top bracket to prevent dislodgement

NOTES:

- Product dimensions are given in approximate inches
- Appearance of product may vary from descriptions
- When ordering Fabric Panels, the higher grade value will determine the price quote
- Power accessories and Vertical posts are sold separately
- Noise Reduction Coefficient is based on the test method ASTM C-423
- Review finish options on pg. 76, Or see OFG Finish and Upholstery Card

CLASSIC XXI

- Assemble and disassemble 'modules' with segmented and stackable panels assembled in any combination, allowing on-module and off-module accessories matching OFG System Finishes
- Accommodates all standard types of cables, easily customized and accessed in the steel frame with "U" channels for laid management
- Solid panel construction can support worksurfaces, shelves and overhead cabinets all 'on-module'
- On-module overheads (excluding markerboards, tackboards and tool rails) include a specially designed hanger bracket to prevent accidental dislodgement from the panel or wall track
- Meets or exceeds the BIFMA standards for on-module components, excelling in two load tests: functional load and proof load (see Planning Guidelines for more details)
- Off-module Mounted Shelves & Cabinets can only be hung with the top aligned to a 12" tile, securing it to the horizontal rail
- On-module Mounted Shelves & Cabinets have integral teeth to engage in the vertical post, by easily holding the cabinet bottom out about 30 degrees then rotate into place

NOTES:

	CIMB6032	60	32	\$

- Assemble and disassemble 'modules' with segmented and stackable panels assembled in any combination, allowing on-module and off-module accessories matching OFG System Finishes
- Accommodates all standard types of cables, easily customized and accessed in the steel frame with "U" channels for laid management
- Solid panel construction can support worksurfaces, shelves and overhead cabinets all 'on-module'
- On-module mounts utilize the slots in vertical posts and component must match width of panel, allowing a vertical adjustment in 1" increments

TO ORDER:

Select the product number.

For example, to order a **Classic XXI 24" x 32" Markberboard** (CIMB2432), select:

Product Number

CIMB2432

NOTES:

- Product dimensions are given in approximate inches
- Appearance of product may vary from descriptions
- When ordering Fabric Panels, the higher grade value will determine the price quote
- Power accessories and Vertical posts are sold separately
- Noise Reduction Coefficient is based on the test method ASTM C-423
- Review finish options on pg. 76, Or see OFG Finish and Upholstery Card
