

Office Seating Spec Sheet

October 2025

Version 4.0

Guest Seating

Task Seating

Executive Seating

Mid-Back Heavy Duty Task Seating

UST247HDBLK
w/ Casters

24/7HD Product Features

- Ideal for EMS workers, police officers, and any environment that demands a robust chair
- Height and width adjustable arms w/ dense polyurethane arm pad for durability
- With its sturdy frame and durable, steel-reinforced back and seat, the 24/7HD accommodates individuals up to 450 lbs.
- Waterfall seat design gently slopes away from the legs, minimizing pressure on the thighs and promoting good posture
- High-density, high-resiliency, dual density foam with Enersorb™ seat topper for enhanced support and comfort
- Swivel-tilt mechanism with infinity position tilt lock, seat depth adjustment, pneumatic height adjustment and tension control

Chair, Seat & Back
Upholstered

- Leg frames are 7/8" O.D. 13-gauge tubular steel. Cross members are 1" O.D. 14-gauge tubular steel and 7/16" diameter solid steel

- Frame finish: Bright nickel-chrome plating, or semi-gloss black high impact epoxy powder coat, electrostatically applied for corrosion resistance

- Slotted, polypropylene backrest with integral steel cantilever springs provides superior comfort and support

- 14" rear-angled back legs for stability

- Polypropylene armrests (cantilever and loop arm models)

- Available with polypropylene seat and backrest, upholstered seat and polypropylene backrest, or upholstered seat and backrest

- When using transport dolly, (poly) seat chairs stack 15 high, and upholstered chairs stack 8 high. Both stack 4 high on floor

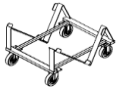

- Swiveling glides correctly match uneven floor conditions, resulting in less wear

- Weight capacity meets or exceeds ANSI/BIFMA X5.1 standards

Upholstered Seat
Armchair

TGUBWACC
Upholstered Back and
Seat Armchair

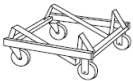

TORSION On The Go! Product Features

- Seat is two-piece construction of molded plywood upholstery board with a molded compound curved shroud with a textured finish
- Two welded steel backrest supports attach the backrest to the Torsion mechanism. A steel tube is welded to each backrest support for added strength
- Seat is always upholstered. Foam (1 3/4") is applied to the molded plywood upholstery board
- Legs are 1" 13-gauge steel tubing
- Seat flips up to allow chairs to nest for storage and transport
- Armrests are made of nylon and rotate with the back
- Weight capacity: 300 lbs.
