Dear Sign Factory Customer,

This catalog covers all Posters we stock for your agency. These items are represented as closely as possible to the original you will receive. Our future web-site will contain full color versions of these Forest Service posters and aluminum signs. The actual posters and signs will continue to be printed from our standard artwork and will not be impacted by anything contained in this catalog.

This catalog was designed and provided to you for your convenience and we welcome any and all suggestions you may have to make shopping with UNICOR Sign Factory a pleasant experience.

We look forward to serving your sign needs.

THANK YOU!
Dear Sign Factory Customer,

We also manufacture custom signs within this publication to your exact requirements. If you have a special need for a custom type of sign, please contact us at:

UNICOR Sign Factory

For Your Safety and Enjoyment
KNOW THESE SIGNS

For a safe and enjoyable skiing experience, match trail difficulty and length of trip to your physical condition and ability.

Arrows may be used on these markers to indicate the established skiing direction on 1-way trails.

Be Alert Reduce Speed.
Signals steep hills, road crossings, etc.
Watch for approaching skiers or vehicles.

Stay Off Trail!
Unsafe trail closed due to insufficient snow, down trees or other hazards.

Snowplowing and/or step turns may be necessary for control on some downhill portions of "more difficult" and "most difficult" trails.

Watch for other signs with specific messages.

Signed distances are in either miles or kilometers.
1 km = approx. 0.6 mi.
1 mi. = approx. 1.6 km.
Caution - Signs are sometimes stolen or damaged.
Some trails may be partially or completely unsigned.

For Season
Road Closed

For Warmup and New Skiers.
Mainly level to gently rolling terrain. No sharp curves or steep slopes. Under most conditions, hills can be skied without need to "snowplow" or "herringbone".

For Advanced Beginners and Experienced Skiers.
More rolling and hilly. Longer and steeper slopes than "easiest" trails. May be necessary to "herringbone" on short steep slopes.

For Vigorous, Experienced Skiers Who Seek a Challenge.
Quite hilly. Usually part of longer loops. Longer and steeper slopes than "more difficult" trails. Often necessary to "herringbone" and/or sidestep.

For Reassurance that you are on a ski trail.
Arrows may be used on these markers to indicate the established skiing direction on 1-way trails.

Be Alert Reduce Speed.
Signals steep hills, road crossings, etc.
Watch for approaching skiers or vehicles.

Stay Off Trail!
Unsafe trail closed due to insufficient snow, down trees or other hazards.

Snowplowing and/or step turns may be necessary for control on some downhill portions of "more difficult" and "most difficult" trails.

Watch for other signs with specific messages.

Signed distances are in either miles or kilometers.
1 km = approx. 0.6 mi.
1 mi. = approx. 1.6 km.
Caution - Signs are sometimes stolen or damaged.
Some trails may be partially or completely unsigned.

For a safe and enjoyable skiing experience, match trail difficulty and length of trip to your physical condition and ability.

As a visitor to the National Forests, you must follow certain rules to protect the forest and the natural environment, and to ensure your health and safety. So follow these reminders:

- Please... Do Not Litter!
- Push It... Campground Courtesy Pays Off

Who Passed This Way?

Archeological and historic sites hold clues to America's past. If disturbed, a part of our heritage may be lost forever. Sites and artifacts on public lands are protected by Federal law. If you discover such remains, please leave them undisturbed. Report your discoveries to Forest Service personnel.

Don't pollute lakes and streams
KEEP YOUR WATERS CLEAN
As your Chief, I am dedicated to providing a safe and healthful environment for all our employees, volunteers, and partners. Every line officer and I are committed to ensuring our work project, all risks are mitigated to the lowest acceptable level possible. This commitment can only be achieved through mindful participation of every employee. We must approach every task through a lens of critical awareness, looking for the hazards that may interfere with the safe and successful completion of the task at hand. Safety cannot be an afterthought. It must be a core value of our culture, ingrained in the character of every employee. As an Agency, we must endeavor to place the safety of our co-workers and ourselves above all else. This obligation requires integrity, trust, and leadership: the integrity of every employee is to adhere to Agency standards, the trust in our leaders to place safety as the first priority, and leadership at all levels to provide a culture that encourages employees to communicate unsafe conditions, policies, or acts that could lead to accidents without fear of reprisal.

I believe that accidents are preventable. However, we are often challenged with working in very high-risk and dynamic environments that are not always predictable. Consequently, we each have a responsibility to ensure that we are properly qualified, appropriately trained, and mentally and physically prepared to safely undertake our work. The prevention of accidents can only occur if we commit to safe work practices, continually assess our changing environment, refuse to assume unacceptable risks, and continually address unsafe conditions. Every employee must assume these responsibilities as a top priority. I expect every employee to take care of yourself, watch out for each other and adhere to our safety standards. There is no task so important that it should be conducted at the expense of safe and sound operations.

THOMAS L. TIDWELL
Chief
