UNICOR**

A properly fit garment provides comfort, function, and protection. The best way to ensure proper fit is to try on a vest with armor installed. The size chart below will help you chose a properly fit vest if no in-person fitting options are available.

Vest editions with custom utility pouches are available in the sizes that correspond to the colors shown.

*Custom Edition:
Double Handcuff,
Radio, & OC Pouch*

*Custom Edition:
Double Handcuff
Pouches*

**No Custom Pouches
Available**

Measuring Tips for Better Fit

Chest Circumference. Measure the whole way around your torso at a point just under the arms while wearing a shirt only.

Front Length. Measure from the collar bone to the top edge of your duty belt. Larger individuals may prefer to measure front length from the base of the neck to the point of largest circumference on the waistline, then add 2" - 3" to obtain a comfortable fit.

IMPROVED BOP STAB VEST OUTER CARRIER - BLACK

Federal Prison Industries is proud to provide the Bureau of Prisons with our improved version of the Stab Vest Outer Carrier for daily use by all Correctional Staff. UNICOR has developed an outer carrier which is superior in quality and more functional than the current style in use.

- **Quality.** Long lasting 600 Denier Polyester, Urethane Coated Durable Water Resistant fabric outer shell.
 - 600D Polyester is abrasion resistant; more durable than the 100% Polyester 4.2 oz/yard fabric used on the current version; and resistant to daily use wear and fabric tear.
 - Improved durability of the 600D Polyester fabric will provide a longer useful life for the vest, requiring less frequent replacement.
 - DWR coating provides water repellency as well as stain resistance. The coating also provides an easy to clean finish.
- **Flexibility.** Side Panels utilize 75/25 Nylon/Spandex blend to create a stronger, more durable side panel that does not sacrifice flexibility. The current version provides a 92/8 Nylon/Lycra blend which provides less side panel stretch.
- **Comfort.** 100% Nylon Mesh Liner versus polyester liner. Nylon and Polyester have very similar characteristics; however, Nylon mesh provides more stretch, better breathability, and resistance to oils.
- **Functionality.** Vest includes Radio Holster, 2 Handcuff Pouches, and OC Canister Pouch (see Size Chart and Configuration List for Utility Pouch availability by size).
- **Appearance.** High Quality Emblem Embroidery uses 14 colors and over 27,000 stitches.
